

MEGA

YOUR TRUSTED LAUNDRY AND HYGIENE SPECIALIST

MULTI-HOUSING

Small capacity. High performance. Affordable investment.

COMMERCIAL COMBO

BUILT TO LAST 10 000 CYCLES
6 cycles per day, 365 days per year, for 5 years.

INDUSTRIAL COMBO

BUILT TO LAST 30 000 CYCLES
8 cycles per day, 365 days per year, for 10 years.

10 KG WASHER (GIANT C PRO)

- Best wash results
- 400 G extraction
- 102 litres drum volume
- Basic programmability
- Low water usage of 5 litres per kg
- Liquid Dosing
- Twin spray pump for reduced "SUDS" & quickest saturation
- Drain pump for easy installation
- Unpacked Size: 686 x 767 x 983 mm
- Packed Size: 755 x 795 x 1127 mm
- Weight: 87 kg

9 KG WASHER (PW9C)

- Best wash results
- 300 G extraction
- 75 litres drum volume
- Basic programmability
- Low water usage of 5 litres per kg
- Internal heating
- Liquid Dosing
- Cycle auditability with LCD display
- Drain pump for easy installation
- Unpacked Size: 720 x 720 x 1132 mm
- Packed Size: 780 x 820 x 1240 mm
- Weight: 135 kg

10 KG DRYER (GIANT C PRO)

- 201 litres drum volume
- Front roller support system
- Cycle auditability with LED display
- Basic programmability
- Stackable option
- Unpacked Size: 686 x 764 x 983 mm
- Packed Size: 760 x 975 x 1170 mm
- Weight: 59 kg

10 KG DRYER (TD6-10)

- 190 litres drum volume
- Front roller support system
- Cycle auditability with LCD display
- Full programmability
- Advanced residual moisture control
- Reversing drum
- Unpacked Size: 721 x 759 x 1114 mm
- Packed Size: 770 x 820 x 1250 mm
- Weight: 99 kg

WASHER KEY FEATURES

300/400 G EXTRACTION

Higher extraction reduces drying time, saves energy and extends garment life.

INTERNAL HEATING

Electrolux industrial washers come standard with internal heating, this sanitises laundry through thermal disinfection and greatly improves results.

LIQUID DOSING

Automatic control of chemicals reduces over-dosing, and ensures long life and simple operation.

DRYER KEY FEATURES

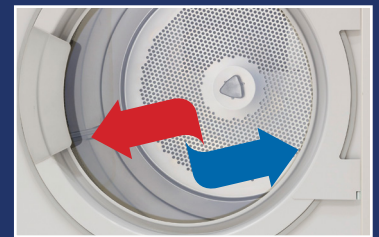

RESIDUAL MOISTURE CONTROL

RMC system stops the dryer at the programmed moisture percentage, preventing damage to fabrics & saves energy.

HIGH OUTPUT

Electrolux industrial dryers are twice as fast when compared to domestic/commercial models, processing 2 loads per hour.

REVERSING DRUM

Reversing drum prevents twisting and balling of linen. Reduce drying times by 7 to 10 minutes.

TOP VS FRONT LOAD WASHERS

Front load washes use on average 50% less water, this 50 litres water saving per cycle over 1 year results in a saving of **146 000 litres** of water.

Front load washers average 50% less detergent usage, if we calculate detergent cost savings @ R0.75 per kg, this equates to **R17 520** saving per year, more than paying for the difference to front load washer in 1 year.

Front load washers extract more water during the final spin, this saving results in 1.6 kW saving in the dryer per load and over 1 year this equates to a **4 672 kW** or **R7 008** saving @ R1.50 per kW.

Care

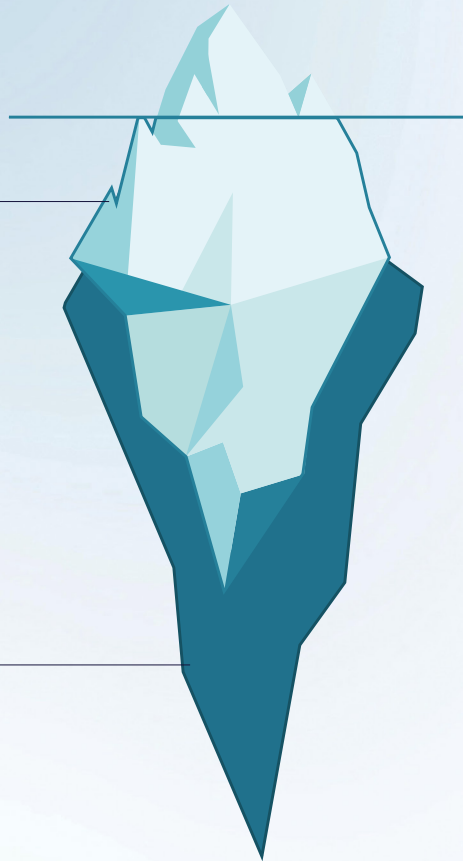

THE ECO-FRIENDLY ALTERNATIVE
TO DRY CLEANING

Our "iceberg" is slim

While other washers and dryers have **extensive lifetime costs**, we can represent ours with a slimmer iceberg shape because of the savings you will achieve thanks to its **money-saving features** and robust engineering.

Competitors' life cycle costs

Here is a representation of what other brands cost over the life of their washers and dryers.

15%
Up-front investment

85%
Life cycle costs

These costs make up **the bulk of your expenses** during the lifetime of your washer or dryer.
